

The following conversion table applies to elementary schools that normally release at 2:42pm and 3:27pm. The table is provided so that you can estimate your stop time for Monday afternoons (when elementary schools release earlier - at 1:10pm and 1:55pm). In most cases, you should be able to use your estimated stop time that is posted for Tuesdays through Fridays to establish your estimated stop time for Monday. For example, if your estimated stop time is 2:53pm on Tuesday through Friday, your stop time would be approximately 1:21pm on Mondays.
